Trenchless Technology - The real reason Why

MARK YOUR CALENDARS!

**Guest Speaker: Kevin Bainbridge, Senior Project Manager, Asset Management
Water/Wastewater & Sustainable Infrastructure City of Hamilton**

Kevin is a Civil Engineering Technologist having graduated in 1995 from Mohawk College in Hamilton and has worked in the municipal sewer and water industry for the past 13 years.

Kevin is currently the Senior Project Manager of Subsurface Infrastructure, responsible for the coordination of the City's Capital Improvement Programs for Water & Wastewater Systems, Infrastructure Management of the Distribution and Collection systems and Infrastructure Management Policy Development.

He has author several papers on various aspects of Infrastructure Management and spoken at a number of conferences and seminars on the subject of Infrastructure Management, including AWWA ACE, ASCE Pipelines, OWWA, INFRA and NASTT No-Dig Show.

“Trenchless Technology - The real reason Why”

Presentation Overview:

This presentation will focus on the business case for the use of trenchless technologies in the management of buried infrastructure. It will highlight the relationship between trenchless technologies and optimized decision making through asset management best practices. Information presented will assist municipal infrastructure managers in building a strong argument for the use of trenchless technologies in their communities.
